L&Aser competition priorities

Public redacted edition | 30 October 2026

This edition follows the same disclosure decisions as the public chronology: all 166 event IDs remain visible, with 73 event summaries disclosed and the contents of 93 events redacted.

The existing priority order is preserved. Rank indicates review priority for U.S. commercial access and competition questions; it is not a measure of wrongdoing or the likelihood of a legal outcome.

Rank	ID	Tier A - all 25 review priorities
1	#136	U.S. permanent injunction signed
2	#163	U.S. judgment entered
3	#106	Default relief recommended
4	#64	U.S. preliminary injunction filed
5	#39	U.S. patent action filed
6	#76	Default judgment requested
7	#56	Preliminary injunction requested
8	#148	[redacted]
9	#147	[redacted]
10	#154	Earlier default motion denied
11	#135	FTC-USDA equipment inquiry
12	#2	International patent filing
13	#3	International patent publication
14	#5	U.S. patent application filed
15	#12	U.S. application published
16	#21	[redacted]
17	#110	L&A U.S. patent issued
18	#59	Hybrid Dual Licensing V1.0 released
19	#69	[redacted]
20	#158	[redacted]
21	#86	[redacted]
22	#115	ARPA-H launches STREAM
23	#75	[redacted]
24	#123	[redacted]
25	#34	[redacted]

Redacted titles repeated in this opening table are the same events shown in the register. They do not add to the 93-event redaction count.

How to read this edition

The entries retain their original ranks, event IDs, dates and tiers. Disclosed titles, factual summaries and source descriptions use the wording already selected for the public chronology. Private review commentary, source links and undated supplemental leads are excluded.

The count distinction

The public register contains **166 events: 73 disclosed and 93 redacted**. The prepared nonpublic agency register contains **158 events: those same 73 plus 85 additional entries**. **Eight entries remain held separately** and are not included in that agency register. Thus 93 = 85 + 8.

These are counts of numbered event entries. They are not counts of black bars, allegations or violations. Ancillary review notes and unnumbered leads fall outside the 166-event register.

Priority tiers

Tier	Events	Priority group
A	25	Review first
B	49	Build the substantive record
C	37	Develop and corroborate
D	29	Supporting context
E	26	Financial controls

Dates and revisions

The priority order remains the October 28 order. This edition incorporates the factual corrections through October 29, including the September 29 preprint publication, Hybrid Dual Licensing V1.0, the speech and deployments, and the cycle-bottom statements.

An asterisk (*) identifies a provisional screenshot-derived date; a double dagger (‡) identifies a reported submission or document date. Month and year ranges retain their original precision. This refresh does not add new docket or market research.

Tier A Review first

25 events in the existing priority order

1. #136 U.S. permanent injunction signed

13 Oct 2026

Docket 105 signed October 13; filing and separate judgment entry follow October 14.

Source. Original court order, Docket 105.

2. #163 U.S. judgment entered

14 Oct 2026

The permanent-injunction order is filed as Docket 105, and the separate civil judgment is entered as Docket 106.

Source. Court filing stamps and separate judgment.

3. #106 Default relief recommended

24 Jun 2026

The magistrate judge recommends default judgment and a permanent injunction against L&A.

Source. U.S. findings and recommendations, Docket 104.

4. #64 U.S. preliminary injunction filed

13 Jun 2025

Docket 74 filed June 13; order signed June 12.

Source. U.S. district-court order and filing chronology.

5. #39 U.S. patent action filed

31 Oct 2024

Carbon files its patent action against L&A in the Eastern District of California, case 2:24-cv-03012.

Source. Complaint, Docket 1.

6. #76 Default judgment requested

27 Oct 2025

Carbon files its motion for default judgment against L&A.

Source. Docket 101; date recited in Docket 105.

7. #56 Preliminary injunction requested

8 Apr 2025

Carbon asks the court for a preliminary injunction against L&A.

Source. Motion date recited in U.S. order, Docket 74.

8. #148 [redacted]

21 May 2025

[redacted]

9. #147 [redacted]

19 May 2025

[redacted]

10. #154 Earlier default motion denied

29 Aug 2025

The court denies Carbon's earlier default-judgment motion without prejudice.

Source. U.S. Docket 91, August 29, 2025.

11. #135 FTC-USDA equipment inquiry

7 Oct 2026

The agencies invite public comments on agricultural equipment manufacturing, distribution, market access and competition.

Source. FTC-USDA inquiry announcement and Request for Public Comments on Agricultural Equipment Sector.

12. #2 International patent filing

28 Feb 2022

L&A files international application PCT/US2022/070878.

Source. Published patent-family record.

13. #3 International patent publication

1 Sep 2022

WO2022183222A1 published; disclosure enters the public record.

Source. WIPO publication / patent-family record.

14. #5 U.S. patent application filed

28 Aug 2023

Continuation-in-part application 18/457,151 filed.

Source. US 12,677,822 B2 cover and family record.

15. #12 U.S. application published

14 Dec 2023

U.S. patent application US20230397597A1 is published.

Source. U.S. patent publication record.

16. #21 [redacted]

APR 2024

[redacted]

17. #110 L&A U.S. patent issued

14 Jul 2026

U.S. Patent 12,677,822 B2 is issued to L&A.

Source. Issued patent cover, July 14, 2026.

18. #59 Hybrid Dual Licensing V1.0 released

3 May 2025

L&A releases perception code on GitHub under Dual Licensing V1.0. Alpha Module perception came years earlier; this was not a full open-source release of L&Aser.

Source. L&A public May 3, 2025 release post; Christopher Laudando's correction of the Dual Licensing V1.0 / earlier Alpha Module distinction, October 29, 2026.
